Inserts

*Used to complement any tile, or as a collage for feature walls.
They are printed, engraved, embossed or mosaic in ceramic or stone.*

Beautiful Shapes

Colorful ceramic tiles cut into interesting shapes to complement the aesthetic of the space.

The background is a solid teal color. It features several decorative white dotted lines that form elegant, swirling patterns. These swirls are positioned in the upper and lower corners of the frame. In the center, there is a white, rectangular area that resembles a piece of paper with slightly irregular edges, creating a layered effect.
